PROGRAMME DETAILS

Confidence Building

Our beneficiaries, often refugees, suffered from traumatic pasts. We link them with volunteer role models in the same industry for inspiration, practical advice, and support. They help them build self-confidence and assist in overcoming past challenges.

Qualification Recognition

We help beneficiaries get their overseas qualifications recognized in the UK. We provide formal translation of qualifications for those who don't require professional approval.

Language Proficiency

We support with advanced English tests like IELTS and OET, necessary for health sectors and other industries and educational providers. We offer language tuition to assist individuals in preparing for these English proficiency tests.

Specialised Training

We provide specialised training including but not limited to healthcare (PLAB) and accounting (AAT Certification). The tuition is delivered by TT tutors specialising in these professional areas.

Work Placement

We use our connections to secure work placements, often starting as voluntary positions that can lead to paid employment. They are often low-skilled placements to help beneficiaries build their career history while completing their courses.
