TORANJ TUITION

# Informal Science Club

- Science, Technology, Maths and Engineering (STEM) workshops and field trips
- Makes STEM engaging and enjoyable
- Inspires participants to take an interest in STEM

Participants are enrolled in one of two clubs:

1. **The Chemistry of Healthy Eating.** Children and their parents/ guardians learn about food testing and healthy eating.

2. **The Delight of Light.** Children design 3D lighthouse models to learn about physics, engineering and programming, followed by a trip to a local lighthouse.

We are the only organisation in the North of England with funding from almost all the major UK science bodies and academies.
